CHRISTOPHER LEE

Senior Spatial Designer
Spatial | Interior | Furniture | Brand Experience

Creative Spatial Designer with over six years of international experience designing branded envi-
ronments, luxury retail, hospitality, commercial interiors and experiential spaces across Europe, the
Middle East and the Asia-Pacific region.

Experienced throughout the entire design process — from concept development and spatial story-
telling through design development, technical detailing and construction documentation — combin-
ing creative thinking with a practical understanding of project delivery.

Having worked within both architecture and brand experience consultancies, I enjoy transforming
strategic ideas into memorable physical experiences that are creative, commercially effective and
technically buildable.

PROFESSIONAL EXPERIENCE

Senior Designer
Futurebrand (formerly UXUS) | Amsterdam, Netherlands *Sep 2024 - Present*

- Design branded environments and spatial experiences for international clients across Europe and global markets.
- Lead projects from concept development through design refinement and client presentation.
- Develop creative narratives, customer journeys and experiential concepts.
- Produce Rhino models, renders and presentation material using Rhino, V-Ray, D5 and Adobe Creative Suite.
- Collaborate with strategists, creative directors and project managers.
- Contribute across retail, automotive, education, hospitality, commercial and exhibition projects.

Designer
Sybarite | London, United Kingdom *Jul 2023 - July 2024*

- Contributed to luxury retail, hospitality and mixed-use projects for international clients.
- Developed concepts, layouts and spatial narratives from early design through design development.
- Produced Rhino models, layouts, visualisations and presentation imagery.
- Collaborated with architects, interior designers and multidisciplinary teams.
- Supported material research and iterative design development.
- Helped translate brand strategy into engaging spatial experiences.

Technical Designer & Senior Interior Designer
OTTO Designs & Construction | Hong Kong *Jan 2021 - July 2022*

- Produced complete construction drawing packages for luxury retail and bespoke residential projects.
- Designed bespoke furniture, joinery and architectural detailing.
- Developed technical solutions through Rhino modelling, rendering and prototyping.
- Coordinated suppliers, consultants and contractors.
- Supported project management, quantity surveying and site coordination.
